PROFILE

As a passionate software engineer, I thrive on challenges and constantly seek opportunities to learn new things. My experience as a technical writer for a startup has equipped me with the skills and mindset necessary to succeed in a fast-paced environment. I am deeply inspired by the transformative power of technology and the pivotal role that developers play in shaping the world. I am committed to contributing to the world through software development, strong communication, and collaboration skills.

SKILLS

- React
- JavaScript, HTML
- SQL, PostgreSQL, Firebase
- Node.js, Express.js
- CSS, Bootstrap
- Github
- TDD
- C, C++, Java, Data Structures

EDUCATION

Software Engineering Immersive
General Assembly, Australia
Feb 2023 – May 2023

Bachelor of Engineering in Computer Science
Visvesvaraya Technological University
2014 - 2018

PROJECTS

Money Honcho: <https://github.com/iffath02/money-honcho-frontend>

- A full-stack application that helps you set-up a budget and keep track of the expenses
- Frontend developed using React and backend using Express.js and PostgreSQL

Learning Loop: <https://learning-loop.onrender.com/>

- A full-stack CRUD application where users can up-skill by taking up different technical courses.
- Developed using JavaScript, PostgreSQL, Express, EJS, CSS

Servo-App: <https://github.com/iffath02/servo-app>

- A single page application that uses user's current location to find petrol stations and display it using Google Maps API
- Developed using JavaScript, PostgreSQL, Express, EJS, CSS

EXPERIENCE

SENIOR RESEARCH ANALYST/LEARNING DESIGNER

EDUREKA

2021

- Identified customers' needs and gaps in the learning resources and recommended new topics.
- Collaborated with stakeholders to obtain an understanding of common questions and issues of the customers to continuously develop the content better.
- Created and improvised various processes to streamline content planning & content delivery.
- Collaborated with marketing team to build content for advertising and promotion campaigns
- Identified and onboarded SME's and trainers who possess knowledge of the respective technology so that they can deliver the content

RESEARCH ANALYST/LEARNING DESIGNER

EDUREKA

2019-2021

- Collaborated with subject matter experts (SME's) to design courses & projects on emerging technologies like RPA, Web development, and Cybersecurity.
- Designed well-structured course curriculum in accordance with the industry needs to target research to the customers' benefit.
- Documented technical information using MS Office tools like word, excel, and powerpoint, for learners and who have zero or very little knowledge of the technical subject.
